Fire danger today is **MODERATE**. Mostly sunny skies, low Rh and some gusty winds have started to dry dead fuels from yesterday's rain and snow. Some areas of snow remain but where fuels are exposed to sun and wind, fine fuels are drying quickly. Lawns and mowed fields are quite green and green is starting to mix with the dead fuels as well, but will only moderate fire danger. Open burning is allowed where fuel and wind conditions are favorable.

Tomorrow fire danger will be **MODERATE to HIGH**. Rh is expected to be fairly low and winds are expected to be light but occasional gusts are possible.

[Six Minutes for Safety: An interagency safety initiative that address high-risk situations that historically get firefighters in trouble.](#)

Report Submitted by: Tess Greaves, VT Dept. of Forests. Parks & Recreation
